Evaluation of Impact of the Training and Dissemination Campaigns

General Information about your organization	
Name of your Organization	
Country	
Date of the training	
Project period	
Dissemination period	
Date of this evaluation form	
Names of the persons involved in completing this form	

Step 2: Final Evaluation of the Dissemination Campaign

Guidance on final evaluating of the Dissemination Campaign

During the past XX months your organization completed different activities focused on disseminating information about the use of misoprostol for safe birth and safe abortion. Please provide an overview of all the activities carried out during the dissemination campaign and reflect on its progress and outcomes. We kindly ask you to furthermore provide general information about the national context in which the dissemination campaign was implemented as well as to give examples of concrete successes and challenges you faced during the campaign. Lastly, we ask you to fill out the short questionnaire measuring the progress and outcomes of the dissemination.

Part 1: self-evaluation and sharing context information (5-6 pages max)

Part 2: short questionnaire

Part 1: Self-evaluation

Overview of the activities carried out
<i>Please provide a brief overview of the activities carried out, specifying who was involved, what happened where and when together with a description of the process and your appreciation using the table below. We would like to know if looking back</i>

over the past year, from your point of view, you have achieved the objectives formulated by your organization at the end of the training and whether the dissemination campaigns have contributed to improve access to information about safe abortion and safe birth with misoprostol in your country.

Objectives of the dissemination campaign	Description of the activities carried out	When were the activities carried out and who was involved?	Reflection on methods and strategies	Reflection on successes and failures

Usefulness of the dissemination materials

Please describe which materials (stickers, flyers, manuals, etc) you used for dissemination of information about misoprostol. Were the dissemination materials useful? Please describe where and how you have used them (for stickers, please indicate what are the best places to put them). Do you have any suggestions for materials to be developed?

[TYPE HERE]

Successes

To what extent has your organization been successful in achieving its objectives for the dissemination campaign?

[TYPE HERE]

Concrete stories

Please provide examples of success stories (for instance a story of a particular women that has been helped). Please also include (copy) those already mentioned in the mid-term evaluation.

[TYPE HERE]

Changes

Has there been any evidence of significant change that has resulted from your work on spreading information on misoprostol until now (for example, evidence of changing attitudes and/or increased debates in organizations, among health care workers or policy makers or in society in general; less stigma/ more openness, etc)?

[TYPE HERE]

Strategies and activities

What has been your experience with using different strategies and activities?

Is there something you would not do again or that did not work as you had expected?

[TYPE HERE]

Learning

What are the most important things you have learned? Have you learned something new through the project that will be useful for the work of your organization in future projects?

[TYPE HERE]

Challenges

Please indicate the biggest challenges? Were there any unexpected challenges (those you had not expected or projected)? Did any calculated/expected challenges really occur?

[TYPE HERE]

Collaboration

Is there something you would like to share with us about your communication and work with us over the past year? For example, is there something you would like to highlight as being useful for you in terms of advice or guidance or something you feel that did not work so well? Do you have any suggestions for us to improve our support of your efforts?

[TYPE HERE]

Policy-legal context

Have there been any changes in the legal and/or policy context in your country since the beginning of the project? How do these relate to the dissemination campaign run by your organization?

[TYPE HERE]

Unsafe abortion in your country

Please describe in general the situation of unsafe abortion in your country (eg. what are common methods used by women, how do they access these methods). Did you get any new insights to this issue since the beginning of the project?

[TYPE HERE]

The availability of misoprostol

Provide a general insight to the availability of misoprostol in your country, include a description of how women manage to get misoprostol.

[TYPE HERE]

Information on misoprostol

Do you feel the instructions for using misoprostol for safe abortion are easy to understand for women informed by your organization?

[TYPE HERE]

Collecting experiences of women

If possible, provide information on the experiences of women using misoprostol for abortion and compare them to women's experiences with common unsafe methods.

[TYPE HERE]

Post-abortion care services available

Explain whether and where women go in case of complications after an abortion. Do you know of any providers of post-abortion care that women feel positively about?

[TYPE HERE]

Attitudes of providers and pharmacies

Can you comment on the attitudes of providers and pharmacists towards misoprostol for safe abortion? Have you been in contact with any?

[TYPE HERE]

Attitudes NGO's

Can you comment on the attitudes of the people in organizations you provided with information about safe abortion with misoprostol, include a description of these people/ groups (community health workers/ women's groups/ youth groups)? Did you see any positive changes?

[TYPE HERE]

Plans for the near future

Please provide an overview of your plans for the coming period.

[TYPE HERE]

Comments / other issues

Do you want add or comment anything else?
