Women on Waves was in 2003 for the first time with the abortion boat ashore in Poland. „ Since then there has been no change in the area of abortion, "said founder Rebecca Gomperts She continues. „ Poland is one of the few countries in Europe where abortion is not permitted." Time for action so the organization. Found in collaboration with German and Polish women's organizations beyond the drone with medication abortion Saturday from Frankfurt, a few minutes later to cross the Polish border stabbing to Slubice. There, pick up women of the Polish organization the pills to spread these risks.

Awareness „ It is truly an awareness campaign, "says Gomperts. „ Poland is taking logistics convenient because it is near and adjacent to a country where abortion is permitted. " In Poland, abortion tightened in 1993, giving women may abort only if the pregnancy causes health problems when there is rape or incest or when the fetus has been damaged. There are an estimated 240,000 illegal abortions in Poland each year. Gomperts not rule out that other countries will be visited by the abortion drone. „ But first let me see what happens. Is it right, then we could do this for example in Ireland. "
